* The mean population for the year is obtained as follows;—To the population at the end of the preceding year add four times the population on the 31st March of the year under review, twice the population on 30th June, four times the population on the 30th September and the population on the 31st December, and divide the total by 12, which is the method now in use throughout the Commonwealth of Australia. Each quarterly mean is arrived at by adding together the number of the population at the beginning and at the end of the quarter and dividing the sum so obtained by two. † Excess of departures over arrivals. ‡ Decrease.

VI.—METEOROLOGY.

No. 77.—*Notes on the Climate of Western Australia for year ending 31st December, 1909.*

(By the Commonwealth Meteorological Divisional Officer for Western Australia.)

In West Australia seasons are clearly defined, both as regards temperature and rainfall, January corresponding with the English July, thus our *Summer* months would consist of December, January, and February; *Autumn*, March, April, and May; *Winter*, June, July, and August; and *Spring*, September, October, and November; January being our mid-summer, and July our mid-winter; whilst March would commence Autumn, and September our Spring.

The annexed table shows the mean temperature, evaporation, and rainfall for several years at Perth for each of the seasons:—The temperature records extend over thirteen years; the evaporation eleven, and the rainfall thirty-four years.

a. The gross Public Debt on the 30th June was, as shown in column 9, £21,951,753 7s. 3d. In addition to this amount the State was indebted to the Government Savings Bank, etc., for £137,372 19s. 9d. invested in the purchase of Bonds under the Agricultural Lands Purchase Act, and £841,100 in Mortgage Bonds under the Agricultural Bank Act. Unlike other Loan Issues made by the State, the Interest on these Bonds is not charged to Revenue, nor will the Principal be so charged should the funds accumulating under the respective Acts suffice for the purpose of Redemption. b. Premiums on Conversions. c. Discounts on Conversions. d. The £2,938 17s. 7d. shown here as expenses is really the cost of issuing £296,100 debentures, £50,000 of which issue has been converted into Local Inscribed Stock, and so brought to account, exclusive of its share of these expenses. e. Included in Local Inscribed Stock. f. Part proceeds. g. Against these Authorisations the following flotations are earmarked:—Local Inscribed Stock, £2,625,900, Treasury Bills, £717,000,—Total, £3,342,900.

No. 5.—*Number of Holdings from which Returns were received for the Season 1909-1910, arranged in Acreage Series, and Total Area in acres, distinguishing Statistical Districts, Sub-Districts, and Areas of Western Australia.*

NOTES.—1. *The (rectangular) areas* adopted, which are shown on the map attached to this part of the *Statistical Register*, are comprised within the sheet lines of the Standard Plans of the Survey Department. Being permanently fixed they are units that can be readily sub-divided and re-grouped at any future time into new districts and sub-districts, without impairing their use for comparative purposes. Except where the areas are broken by the sea coast or other causes, the area numbers here printed in black type represent areas of 8,437½ square miles each, whilst those printed in ordinary type represent areas of 937½ square miles each, and the sub-area numbers marked *a*, *b*, *c*, or *d*, as the case may be, represent areas of 234⅜ square miles each. 2. Areas in parentheses and marked with an asterisk (*), are those for which the returns, if any, have been included in those of an adjacent area where the homestead is situated. In most instances, however, they are entirely unoccupied. Areas marked (†) are portions of areas only.

(†) The reason why Returns relative to certain alienated and leased land are not obtained under the Statistics Act is mainly to be found in the fact that it has proved impracticable for the Statistical Collectors to enforce the provisions of the Act in connection with lands which remain *entirely unimproved or unstocked*, and also in a lesser degree in the fact that small holdings under one acre in extent are exempted from supplying Returns. The Statistical returns are, however, collected from all lands over one acre in extent on which improvements have been effected, and upon which Agricultural or Pastoral pursuits are carried on, and, therefore, comprise all lands the obtaining of Returns from which would serve any practical purpose.

NOTES.—1.—*See* Notes above Table No. 5. Except where the Statistical areas are broken by the sea coast or other causes, the area numbers here printed in black figures represent areas of 8,437½ square miles each, while those printed in ordinary type represent areas of 937½ square miles each, and the Sub-Area numbers marked *a*, *b*, *c*, or *d*, as the case may be, represent areas of 234⅜ square miles each. 2.—Areas in parentheses, and marked with an asterisk (*), are those for which the returns, if any, have been included in those of an adjacent area where the homestead is situated. In most instances, however, they are entirely unoccupied. Areas marked (†) are portions of areas only. 3.—Average yields are given for Districts and Sub-Districts only.

NOTE.—This table has been compiled with the special object of showing the values of the importations into Western Australia during the last 10 years of such products of the soil and of live stock as could have been produced within the State, but are at present introduced to supply the deficiency in local production. It serves as a basis for calculations as to the market reasonably to be expected therein for home-grown products.

* Children under the age of seven years are not criminally responsible; those who have attained that age, but are still under fourteen, are only criminally responsible if it is proved that at the time of the offence they were capable of knowing that they ought to have acted otherwise. In the above table, charges have been included concerning children under seven and over fourteen. Neglected children, formerly dealt with in this table, are now tabulated separately, *see* Tables Nos. 39 and 40.

* Exclusive of cost of Administration. † Up to and including 1895 the numbers given are those of the "Assisted" or State-aided Denominational Schools. By "The Assisted Schools Abolition Act, 1895," all grants-in-aid to these were abolished from the 31st December of that year. Thereafter these schools ranked as "Private" schools, as distinguished from "Government" schools. The figures for 1896 and onwards include all private schools, secondary as well as primary, though one of the former (the Perth High School) is subsidised by the State. The average attendance, and, consequently, the percentage of attendance to enrolment at these schools from 1896 is partly estimated, some of the returns forwarded being obviously incorrect. ‡ Not ascertained previous to 1897. § Including schools closed during the year. *a* From and including 1897 the percentage of attendance to enrolment has been calculated on the basis of "average attendance" to "average enrolment." *b* Including one undenominational school, particulars of which are not included in next three columns. *c* Year ended 30th June.

Therefore, the attendance by a clergyman is credited to the denomination whose minister imparts instruction. † Special religious instruction has been given in 279 distinct schools.

* The monthly barometer mean readings since 1885 are taken from the 9 a.m. and 3 p.m. daily readings. Prior to that the mean of the noon readings was used as the monthly mean. *Correction for Gravity*—·034 has not been applied above. † Readings omitted on account of being unreliable. ‡ The thermometers were moved in August, 1885, to their present position in the Botanic Gardens, and as they have apparently given a slightly lower record since then, the means have been taken from 1886 only.

a From the first settlement of the colony up to the year 1837 there were no Blue Books issued, and the figures relating to arrivals and departures, shipping, imports and exports were taken either from the reports of the Harbour Master at Fremantle or from the Perth newspapers of that period. From 1838 to 1859, inclusive, the Blue Books give only the excess of arrivals over departures, or *vice versa*. *b* No records obtainable. *c* Including allowance of 5 per cent. for unrecorded departures. *d*. The figures for 1893 and subsequent years are for year ended 30th June. *e* Exclusive of figures relating to Unclaimed Depositors' Fund, which for previous years have been included, but including figures relative to the Schools Savings Bank, which provision did not previously exist. *f* Departmental figures.

a The exports up to the year 1834 consisted only of supplies to shipping, of which no record was kept. *b* No records obtainable. * Total Gold Export is included in Table No. 3, "Gold Production," page 7, which comprises gold received at the Perth Mint. † Records of Outward Shipping for several years are not available, and for such years, therefore, the same figures are shown as for Inward Shipping. Where, occasionally, the correct outward figures have been found recorded, they naturally clash with the system adopted for the other years,
